Askew

design Daniel Fintzi

Cornici scolpite e sinuose sorreggono cuscini dalle proporzioni geometriche: attraverso un equilibrio di elementi, Askew rende omaggio alle forme scultoree di epoca classica. Declinata nelle varianti poltroncina, poltrona e divanetto in massello di faggio, con rivestimento in tessuto, pelle o ecopelle, la collezione si propone come un esempio di classico-contemporaneo.

Geometric cushions are supported by sinewy and sculptured frames: through its perfectly balanced elements, Askew pays homage to sculptural figures of the Classical Age. Declined in armchair, lounge chair and two-seater sofa, in solid beech, with fabric, leather or eco-leather upholstery, the collection is an expression of contemporary-classic style.
